The KRFC board of directors unanimously approved a proposed amendment to the KRFC mission statement in a meeting on February 16th, 2006. We feel these significant changes may represent a change in the spirit of KRFC's founding philosophy. A full vote of the membership seems a reasonable course to take in this case given the implications of these changes on present and future volunteers and members of KRFC.

In order to prevent those proposed amendments from being accepted without a vote by members, we members of KRFC sign this petition in accordance with Article XI of the KRFC bylaws.
